Backend Engineer with 2+ years of experience in the BFSI domain, specializing in Java, Spring Boot, Microservices, and REST/SOAP APIs. Experienced in building enterprise backend applications, modernizing legacy integrations, and developing event-driven solutions using Apache Kafka. Skilled in CI/CD, cloud-native deployments, and delivering reliable, production-ready software.

TECHNICAL SKILLS

Languages: Java, Python

Backend: Spring Boot, Spring Cloud, Microservices, REST APIs, SOAP, Apache Kafka

Databases & DevOps: Oracle, Couchbase, MongoDB, Docker, OpenShift, Git, Maven, Jenkins, Bitbucket, Harness, CI/CD

Tools: JUnit, SonarQube, Snyk, Checkmarx, Diffblue, Splunk, Kibana, Swagger, Jira

WORK EXPERIENCE

TATA CONSULTANCY SERVICES

Internal Platform/Product

Sep 2024 – March 2025

- Contributed to the full SDLC including **end-to-end development**, fixing complex bugs, writing unit tests and **deployment of code in production through CI/CD pipelines**.
- Developed core microservices and features for TCS Omnistore using Java and Spring Boot, leveraging a 3-tier **Domain-Driven Architecture** to support global retail clients
- Built a **feedback content service** to send automated email alerts to users, resulting in an expansion of customer

BFSI Domain

March 2025 - Present

Tibco to java migration

- Took ownership of more than 5 API for Tibco to java migration in REST/SOAP APIs for banking applications all are in production now.
- Optimized database access by batching account and branch lookups into a single query reducing redundant database calls.

Data Distribution Application

- Built Spring Boot REST APIs for a greenfield banking application implementing multi-stage data retrieval using Couchbase for recent transaction and HBase for historical data.

Metadata Explorer (Internal POC)

- Developed backend APIs and a Streamlit-based web application that enables Business Analysts to upload Excel metadata and explore database tables, attributes, and API field mappings like discovery platform

Guided new team members on backend development workflows, deployment processes, production monitoring

PROJECTS

Spring-Boot-Web-Application | [Link](#)

- Built a secure **Spring Boot** To-Do app using **MVC**, **Spring Security**, **JPA/H2**, **Hibernate validation**, and **Bootstrap**.

Spring-Boot-Microservices-with-Spring-Cloud | [Link](#)

- Developed Dept/Employee/Org microservices with Spring Boot; implemented **Eureka & OpenFeign** for dynamic discovery and inter-service communication.
- Centralized configs via **Config Server** and enabled zero-downtime updates using **Spring Cloud Bus** with **RabbitMQ**

CERTIFICATIONS

- Oracle Certified Associate (OCA), Java SE 8 Programmer
- Oracle Cloud Infrastructure Certified Foundation Associate
- Oracle Cloud Infrastructure Certified AI Foundation Associate

EDUCATION

B.Tech in EEE– Anna University (2020–2024) | School: Sainik School Kazhakootam (2013 – 2020)
